Hi Brianna,

It was nice speaking with you again today. I appreciate you letting us know that Mr. Abittan did receive the metadata our clients produced and that it is ok to send you another set of the production with the metadata to ensure you have it all.

Below please find the list of metadata fields I referenced. Would you please let me know which of these fields are included in the metadata your client plans to produce with responsive documents by marking yes or no next to each field below? Also, would you please add to the list any additional metadata fields in your current set and/or associated with the documents that your client plans to produce (and mark yes or no next to them as applicable)?
